

## VBN Starter 5 Nursery Base

VBN Product Code:633100

### For Further Manufacture of Feeds For Pigs Weighing Over 25 Pounds

Contains a source of Phytase produced by *Aspergillus oryzae* modified by Phytase gene from *Peniphora lycil*. Phytase increases the digestibility of phytin-bound phosphorous in swine diets

**Form:** meal

**Package:** 50 lb bags, totes to order, bulk

**Purpose:** Nursery Base to blend with soybean meal and corn

**VBN Starter 5—Nursery Base** is blended with soybean meal and corn to make a diet that is designed to be fed after VBN Starter 4—Nursery Concentrate. VBN Starter 5—Nursery Base is blended with corn and soybean meal to supply the full nutritional requirement of starter pigs.

#### Features & Benefits:

- Formulated to supply the nutritional requirement of corn/soy diets
- Enables producer to blend on-farm
- Provides high levels of lysine to maximize lean growth
- Fortified with optimum levels of vitamins, trace minerals, and other nutritional supplements to optimize early growth in the nursery.
- Contains a balance of essential fatty acids, prebiotics, and probiotics to promote healthy gut development
- Positions the pig for peak protein deposition at an economical cost
- Levucell SB provides stimulation of the immune system in nursery pigs

**Feeding Directions:** Add 100 pounds per ton of complete feed. Mix and feed as follows or as directed by your feed representative.

Corn .....	1350
Soybean Meal .....	550
Nursery Concentrate .....	100
<b>Total .....</b>	<b>2000</b>

Provide fresh, clean water at all times.
